Introducing Capital's
EXPANDED TECHNOLOGY CENTER

DALLAS
MARCH 7 & 8TH, 2017
9am - 4pm

OTC-DAIHEN Presents
WELDING SEMINAR
11AM - 12PM Controlling Weld Spatter
• Cost/Quality impact to production
• Techniques to Reduce/Eliminate
1PM - 2PM Mobile Solutions Center
• Hand’s-on labs with Manual and Robotic Welding

Laser Cutting

Mazak Optiplex Nexus 3015 4kW Fiber
Laser-Cutting Machines Deliver Both Cutting-Edge Technology and an Economical Investment

- Automated Intelligent Setup
- Intelligent Monitoring Functions
- 2.0kW, 3.0kW and 4.0kW Fiber Lasers Available
- Rugged Construction offering 5’ X 10” Processing
- Extensive Automation Options

Robotic Weld Cells

Capital Robotics
Fusion Arc

Folding

Schröder Group

Precision Electric Press Brakes

Safan Darley
The Evolution in sheet metal working

Safan Electric Press Brakes
Quiet, Fast, Accurate and Safe

- At Least a 30% Increase in Productivity
- From 22 to 330 Ton Models Available
- No Crowning Required in Most Applications
- Unique Safety Light Guard Integration
- 50% Less Energy Consumption

Expanded Technology Center
Thermal Cutting Systems

**The MetalMaster Evolution**
Meets the needs of a modern fabrication shop saving costly secondary operations downstream. It is a unitized table and gantry cutting machine that has multiple processes including plasma bevel cutting available.

- The Slagger® Self-Cleaning zoned and Ducted Dry Exhaust Table comes standard on this machine.
- Cutting widths: 6’, 8’ and 10’, Lengths: from 10’ to 50’ in 5’ increments
- Available Processes Include: Plasma and Oxyfuel Cutting, Plasma Bevel Cutting, Drilling up to 3/8”, Plate Marking, Pipe and Tube Cutting and more

Press Brakes

**Waterjet Cutting Systems**

**Flow**

**The Mach 500**
Featuring SmartStream Technology

- Dynamic Waterjet increases speed of processing and compensates for taper
- Flow Pumps from 60K psi to 94K psi
- Total solution complete with service, software, and cutting edge technology
- Available in virtually unlimited configurations

Roll Bending Machines

Davi Roll Bending Machines
With more than 50 years of experience worldwide, Davi is the only Plate and Angle Roll Manufacturer with a factory owned US Customer Support Center which offer sales and service support to the North American market.

- From basic machines to the highest level of automation
- Plate roll series including 3-Roll, 4-Roll and Variable Geometry models
- Profile and Angle Rolls including 3 Roll and 4 Roll models
- CNC operation maximizes productivity and ease of use

Sawing

Since 1984, Capital Machine Technologies (CMT), Inc. has been committed to delivering the latest technologically advanced metal fabrication equipment to its client base of job shops and manufacturers. CMT has a broad range of new machines and Robotic Welding systems under power to provide you a live demonstration in person or remotely from the comfort of your own computer monitor. Capital Machine Technologies is a privately owned company in Tampa, FL.

Iron Workers
