group

Boost Efficiency & Productivity

North America's Largest Distributor of Metal Fabrication & Robotic Welding Equipment

Capital
machine

Dates: November 4th - 6th, 2025

Tuesday: 9am - 4pm

Wednesday: 9am - 4pm

Thursday: 9am - 2pm

Location: Atlanta Technology & Training Center
2964 Northeast Pkwy N.E. Atlanta, GA

An immersive experience in the latest technologies and trends shaping the future of metalworking.

Robotic Bending

SafanDarley Mini Cell

- The E-Brake Mini Cell is equipped with the latest type of FANUC robot with a handling weight of 20 kg
- A supply station for four product stacks, a delivery station and a discharge chute
- This fully automatic press brake is characterized by its compactness. Optionally, the E-Brake Mini Cell can be equipped with automatic tool change function

**SCHRÖDER
GROUP**

Powerbend Pro

- 127.5" x 11 ga or 1/4", and 159" x 12 ga or 0.196" capacities
- Bi-directional folding
- Semi-Automatic vacuum gauge system
- Up to 11.8" tall clamping beam tools
- Tool positioning lights
- CNC Crowning

CNC Punching & Bending

EUROMAC®
punching & bending machines

XT Euromac

- Fully configurable, hydraulic, hybrid, electric
- Can be equipped with up to 60 tools
- Automation Options include:
- Load/Unload & Sorting Cells

Gear up for the exciting Atlanta TECH EXPO with **Complimentary Lunch** on us! Join us for delicious food and connect with fellow fabricators, industry leaders, and potential collaborators.

Fiber Laser

Mazak
OPTONICS CORP.

OptiPlex Ez

- A new laser cutting system designed for those investing in their first laser or looking to upgrade from lower power.
- Selectable laser oscillator power: 4.0 KW, 6.0 KW, 8.0 KW
- Designed to provide high-cutting performance for thin to medium thickness and easy maintenance.
- Ez is the ideal solution for those taking their first step in the laser machine world.

Precision Bending

SAFAN DARLEY
The Evolution in sheet metal working

ACCURPRESS

Accell E

- Electric & Hydraulic Options
- Multi-Axis CNC
- Backgauge Options
- High Speed Forming
- Hydraulic Clamping
- CNC Crowning
- CNC Sheet Lifts

E-Brake 100- 3100 Premium

Water-jet Cutting

OMAX

MAXIEM

- World-Class Support
- Easy-to-use Software
- Built & Tested in the USA
- Optimize Production Without Skilled Operators

ATL TECH EXP 25
ATLANTA

2964 Northeast Pkwy N.E. Atlanta, GA

now offers our remote field service program. Skip the wait time and expense for a on-site service call. With our app you can show us the issue and we can show you the solution in real-time! If we can't fix it - there's **NO COST TO YOU.**

Robotic Welding

Capital Robotics is a subsidiary of Capital Machine Technologies, Inc.

- Highly Flexible Modular Design System
- Options are endless – from positioning to turntables to Robot Transfer Units (sliders) and options for manipulators
- Portable common-bases allow for easy relocation
- Designed with High Mix/Low Volume in mind
- Over 800+ Installations in the South!
- Thin aluminum to thick plate steel

We've got you covered

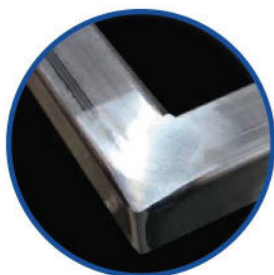

Collaborative Robots

DAIHEN Inc.

Grinding, Deburring, &
Polishing Systems

- Enhance your post-welding processes with OTC DAIHEN's integrated finishing solutions. Our collaboration with PushCorp brings you cutting-edge grinding, deburring, and polishing systems that seamlessly integrate with OTC DAIHEN robots.

Finishing

- Available in 7 widths with configurations of 1-4 heads
- By combining an abrasive belt and a brush, products can be deburred and edge -rounded in one pass
- The machine is produced for deburring laser cut metal and edge rounding of sides, with low user costs
